

Divyansh Rawat

AI Engineer | ML Engineer | Data Scientist

+91 7668962069 divyanshrawat4@gmail.com Jodhpur, India
in/divyanshrawat7 github.com/divyanshrawat7 Portfolio

Education

MTech (Artificial Intelligence) <i>Indian Institute of Technology</i> Relevant Courses: Machine Learning, Artificial Intelligence, Mathematics & Autonomous Systems.	Jodhpur, India 2025-In Progress
BTech (Computer Science and Engineering) <i>Graphic Era Hill University</i> Relevant Courses: Computer Architecture, Compiler Design, Operating System, Databases, Computer Networks, Engineering Mathematics & Data Structure and Algorithm.	Dehradun, India 2019-2023
10+2/Intermediate <i>St. Kabeer Academy</i> Relevant Courses: Physics, Chemistry, Mathematics & Computer Science.	Dehradun, India 2018-2019
10th Grade <i>St. Theresa's School</i>	Srinagar(Garhwal), India 2016-2017

Skills

- **Programming:** Python, SQL, Java, C++, JavaScript
- **AI/ML:** Machine Learning, Deep Learning, NLP, Recommendation Systems, Time Series Forecasting, Feature Engineering
- **Libraries/Tools:** Pandas, NumPy, Scikit-learn, PySpark, Apache Spark, OpenCV, Streamlit
- **Web:** React.js, HTML, CSS, Node.js
- **Platforms:** Git, GitHub, Linux, Jupyter Notebook, VS Code, Heroku
- **Core CS:** DSA, OOP, Operating Systems, DBMS, Computer Networks

Experience

Python Developer <i>Cruxsphere Technologies Pvt. Ltd.</i> • Processed, cleaned, and transformed structured datasets using Python, Pandas, and NumPy for data analysis and machine learning workflows. • Developed automated SQL-based data pipelines and reporting scripts to improve data consistency, processing efficiency, and workflow automation. • Performed data preprocessing, debugging, and script optimization to support scalable analytics and AI/ML application development.	India 04/2024 - 10/2024
Front-End Developer <i>Behere Elite Technologies</i> • Developed responsive and adaptive web designs to ensure compatibility across various devices and browsers. • Developed and maintained web applications using HTML, CSS, JavaScript, React.js, and Node.js.	Delhi, India 06/2023 - 03/2024

Projects

Distributed Recommendation System using Apache Spark MLlib ALS

[GitHub](#)

Jodhpur, India

02/2026 - 04/2026

- Developed a scalable recommendation system using Apache Spark, PySpark, and Spark MLlib's ALS algorithm for collaborative filtering on large-scale datasets.
- Implemented Spark-based preprocessing and ALS model optimization using Spark DataFrames for scalable recommendation generation.
- Integrated the recommendation pipeline with Streamlit and evaluated performance using RMSE, Precision@K, and Recall@K metrics.

Time Series Energy Consumption Forecasting

[GitHub](#)

Jodhpur, India

09/2025 - 11/2025

- Built an end-to-end time series forecasting pipeline to predict India's hourly electricity demand using machine learning and deep learning models.
- Implemented LSTM, XGBoost, Random Forest, and Linear Regression models for electricity demand forecasting.
- Performed feature engineering, visualization, and error analysis using GPU-accelerated training for efficient model development.

Face Recognition based Attendance System

[GitHub](#)

Dehradun, India

03/2022 - 10/2022

- Developed a face recognition-based attendance system using Python, OpenCV, NumPy, and deep learning techniques.
- Implemented CNN-based facial recognition for automated attendance management.
- Optimized image processing workflows, reducing processing time and improving overall system performance by approximately 40%.
- Designed the system with data privacy and integrity measures for secure attendance management.

Publication

Movie Recommendation System Using TF-IDF Vectorizer and Bag of Words

DOI: [10.1109/SMART59791.2023.10428182](https://doi.org/10.1109/SMART59791.2023.10428182)

[IEEE Publication](#)

Achievements

- Graduate Aptitude Test in Engineering [GATE] [Computer Science] qualified.
- Graphic Era Hill University Achiever's Award Recipient (2023).
- Co-Founder and ex-President of Cyber Security Club of Graphic Era Hill University.
- Led team to 4th position in Devbhoomi Cyber Hackathon [All India] against 500 teams.
- Achieved top 565 rank on HackTheBox [Globally].
